Modification of the Tariff.

On Monday, in pursuance of notice previously given, Mr. Bunster moved that the House go into committee of the whole on the question of Excise and Customs, and in support of his motion made a lengthy and able speech, wherein he asserted, and challenged any member of the House to disprove what he said, that the effect of the adoption of the Canadian Tariff without any modification to suit the local circumstances of this Province, had been most disastrous to the interests of that class of persons engaged in agricultural pursuits. Whatever differences of opinion there may be among the members of the House on the subject of the tariff, there can be but one opinion with reference to the hon. member for Victoria District, (Mr. Bunster) that he is an indefatigable worker, and a zealous advocate of all such measures as are calculated to subserve the interests of the people of the district he represents. Throughout the lengthy discussions which took place prior to the adoption of the Canadian Tariff and system of Excise, we always contended that if the Legislature of British Columbia chose to take the necessary and proper steps there would be no difficulty in obtaining such a modification of that tariff as would better promote the interest of the people of this Province than would the Canadian tariff if adopted in its entirety, and without any regard to the peculiar circumstances and necessities of this section of the Dominion. As Mr. Bunster aptly remarked, the people of British Columbia had no hand in the framing of that tariff, and our isolated condition, as compared with the other Provinces of the Dominion, rendered the present tariff, which is doubtless admirably adapted to the wants and circumstances of those Provinces, in a great measure unsuited to British Columbia. There communities are large, and farmers have a wide field for the disposal of their products, while here communities are small and scattered and the market limited; there all branches of industry are in a forward state of development, whereas here they have scarcely as yet obtained even a foothold; there farmers are not confined to local markets and home consumers as customers for their products, but here they are; there labor is comparatively cheap, here it is excessively dear; there they enjoy all the advantages of good roads, cheap transportation, a lively market, and the highest current rates in cash for the produce they have to sell, while here the farmer has to labor under the disadvantage of enjoying next to none of these highly favorable conditions. And had these facts been laid before the authorities at Ottawa prior to the acceptance of the Canadian tariff, and a modification asked for in the interest of our handful of struggling farmers, there can be no doubt the request would have been complied with, and our farmers would have been spared the unfair conditions they now have to bear up against of competing in their own limited markets with the farmers from the other side who come here to dispose of their surplus products at almost any price they can get for them. Did our American neighbors reciprocate with us, and extend to our farmers the same privileges which their farmers enjoy here, there would be some show of excuse for such unwonted liberality on our part; but so long as the American markets are effectually sealed against our people, it does seem anything but just or fair toward the agriculturists of this Province to admit American products into our markets upon terms that enables the producer thereof to undersell our own people. Should the local Legislature favorably entertain the scheme submitted to it by the hon. junior member for Victoria District, and bring the matter properly under the notice of the Dominion Government, there need be little doubt such action will be taken in the premises as will result in a modification of the tariff so as to meet the requirements of our agricultural population. We have the assurance of the Premier (Mr. DeCosmos) that had a modified tariff been sought last year the Government at Ottawa would have favorably entertained the request, and he also gave it as his opinion that it is not even now too late in that way to obtain justice for our farmers. Mr. Bunster certainly deserves great credit for the perseverance and energy he has displayed in reference to this matter, and we hope his untiring efforts may ultimately be crowned with success.

VALENTINE'S DAY.—Associated with it are sentiments thoroughly laved with real purity of purpose and meaning. Like everything sublime, the ridiculous is but the next step. We have a keen conception of both phases of the meaning, and have tried to adapt ourselves to this interesting occasion, by securing an assortment so varied that its effects will either surfeit the receiver with the profuseness of poetry and tinsel, or make both donor and receiver inseparable for life. We venture to caution those who send the comic ones to be merciful, and those who receive them to exercise forbearance.—T. N. HIBBEN & Co. *

A NOVELTY.—The latest novelty in the the utility of paper is the manufacture of curtains from this commodity. By the last steamer from San Francisco, Messrs. Turner, Beeton and Tunstall have received a large quantity of the above articles, of beautiful patterns, not to be distinguished from the best chintz; they are of the same description as those fitted in the saloons of the great exhibition building, at London, 1872. *

NOTICE.—I take pleasure to inform Mr. E Watson's former customers, and particularly the Officers of the Fleet, that I have done all his Watch and Chronometer work for the past four years. As he has left the country, I beg to solicit the direct patronage of his former customers. All watch and fine clock work done for him by me, under one year, will be guaranteed by me. Attention paid also to Letter and Seal Engraving, at moderate prices. G. W. A. LANGE, Yates street. *

In addition to their usual stock of house furnishing and other goods, Barnes & Edwards would call special attention to their stock of Glassware, China, Earthenware and Plated ware, consisting in part of handsome cut and engraved Decanters, Champagnes, Clarets, Hocks, Ports and Sherries, Tumblers, Vases, Epergnes, Flower stands, Celery glasses, Tea and Dinner Services, Plated Tea Services, Spoons, Forks, Soup Ladles, etc., etc. Some of the above goods are superior to anything of their kind ever imported to this market, and are very suitable for Christmas or New Year's Gifts. *

CHRISTMAS!—It is scarcely necessary for us to enumerate the variety of articles upon exhibition at T. N. Hibben & Co.'s, Government street, in anticipation of the approaching holidays. There must be a concession in the minds of every resident here, for the past twelve years, that such an important occasion has never been slighted by us. We are justified in saying, that if one season has excelled another in a tempting array of Christmas-boxes, the present one will eclipse them all in variety, beauty, and attractiveness. *

Second Session.

TUESDAY, Jan. 21st.

The House met at two, p.m. All the members were present.

THE REGISTRARS.

Hon. Mr. Walkem laid before the House a copy of the correspondence refering to the Registrars of the Supreme Court. Ordered to be printed.

NEW WESTMINSTER COUNCIL.

Mr. Holbrook was granted leave to introduce a bill to confirm the titles of purchasers of lots sold for taxes under Sec. 37 of the New Westminster Council Act, 1860. Read a first time; second reading on Thursday.

DYKING BILL.

Hon. Mr. DeCosmos handed in the report of the Select Committee on Dyking, Drainage, and Irrigation Read: 1. It was recommended that section one to twenty-one inclusive of the McCreight bill be made into one bill called "An Act to Amend the Public Works Act 1872." 2. That when one third of the land to be dyked was owned by the Government that the latter should appoint one commissioner to act with commissioners appointed by the other two-thirds. 3. That where the voluntary principle obtains as in the other two sections, and one-third of the money for dyking and draining is raised by the land owners, the Government will guarantee the interest on the other two-thirds, with power to assess and collect sufficient to pay the annual interest in case of default on the part of the Land owners. 4. That the Government take lands, where the Government is wholly or nearly so the owner of the lands, for dyking and draining, in the manner prescribed in the bill referred to the Committee. 5. That Government shall have power to grant lands to persons or companies as a bonus to promote the dyking, ditching and irrigation of the same. 6. That where a party refuses to allow a neighbor to pass his ditch through his land, that the former be compelled to do so.

CONSTITUTION ACT 1871.

Mr. Humphreys was granted leave to introduce an Act to further amend the above Act. Read a first time; second reading on Monday next.

DOWER BILL.

This bill was dropped, the introducer of the bill not being present in his seat.

THE GOLD MINING

Ordinance 1867, Amendment Bill was deferred one day.

Also bill to amend

THE MINERAL ORDINANCE.

Also bill to prevent the

PROFANATION OF THE SUNDAY.

THE DOWER BILL.

Mr. Bunster here entered the House and moved that the Attorney General be requested to frame a Dower Bill for the purpose of giving to married women a right in the real estate of her husband. He did so in the interest of the ladies of this country, and he thought he "struck" the right person to do it, knowing full well his feelings towards the ladies. The bill was requisite for the interests of the country. In the case of an unfortunate merchant, the creditors would not be able to touch the wife's portion of the property.

Seconded by Mr. Humphreys.

Hon. Mr. Walkem asked the consideration of the House, as he had a large amount of work before him The House had a Law Clerk, and would therefore suggest that the matter be referred to that officer. He didn't express any opinion on the merits of the bill.

Suggestion acceded to.

GRAND JURY REPORTS.

Hon. Provincial Secretary laid before the House copy of correspondence passed between the Federal Government and the Judges in respect of reports of Grand Juries. Ordered printed.

THE STICKEEN COUNTRY.

Mr. Humphreys gave notice that he would move that in the opinion of this House it is the duty of the local Government to appoint a competent person to explore and report upon the section of country lying between Dutchman's Landing and Dease's Lake, head of Stickeen River.

THE FIREMEN'S BILLS.

Mr. Duck moved, asking the leave of the House, that the $60 in report of the Firemen's Protection Bill, and $60 fees in respect of the Williams Creek Fire Brigade Bill, be remitted.

Mr. Humphreys was informed by the Speaker that there was precedent in Ontario for this course.

The former, however, supported by Mr. Robson, thought differently. The member for Lillooet quoted precedent, and contended that the Rules and Orders in these bills had not been complied with.

The Speaker cited clear authority. The bill is not intended for any object of profit

Hon. Mr. DeCosmos complained of the waste of time; he was quite sure it was the unanimous wish of the House to remit those fees.

Mr. Barnston felt in this, as in all similar matters, the House has the undoubted right to suspend the Rules of the House.

Mr. Duck's motion was seconded by hon. Mr. Walkem.

Mr. Robson directed attention to certain authority. The House had not the power to remit the fees. It was part of the public revenue.

Hon. Mr. Ash quoted from the Rules and Orders to the contrary. Why didn't hon. gentlemen object to the suspension of the Rules and Orders, and the question would be settled at once?

Mr. Speaker would take until to-morrow to decide the point.

ASSURANCE BILL.

Mr. McCreight moved the second reading of An Act to secure to wives and children the benefit of Assurances on the lives of their husbands and parents.

It was a bill to be taken in connection with one passed a few days ago. This one effectuates the insurances. It is an alteration in the mode of insuring. The hon. gentleman went through the bill, comprising 14 Clauses

The bill was read a second time, and sent to the Committee of the Whole, Mr. Booth in the chair.

The following Sections passed without amendment:

1. It shall be lawful for any person to insure his life for the whole term, thereof, or for any definite period, for the benefit of his wife or of wife and children, or of his children only, or some or one of them, and to apportion the amount of the insurance money, as he may deem proper, where the insurance is effected for the benefit of more than one.

2. The insurance may be effected either in the name of the person whose life is insured, or in the name of his wife, or of any other person (with the assent of such other person) as trustee; and the premium on any policy of insurance hereafter effected under this Act, shall be payable during the whole of the said person's life, or during any lesser period, by annual, half-yearly, quarterly, or monthly payments.

3. It shall be lawful, within one year after the passing of this Act, for any person, by writing indorsed upon or attached to any policy of insurance on his life, which may have been effected and issued before the passing of this Act, to declare that such policy and insurance shall be for the benefit of his wife, or of his wife and children, or of his wife or some or one of his children, or of his children only, or some or one of them, and to appropriate the amount of the insurance money as he may deem proper, when the insurance is declared to be for the benefit of more than one.

The following sections were amended; 7, 8, 9 were stricken out; section 4, of the bill before alluded to failing to the ground.

Section 10 provides that a policy holder may surrender a policy to the company, and to accept in lieu of same a paid up policy for such sum as the premiums paid would represent.

11. Provides it shall be lawful to borrow on the security of the policy such sum as shall be necessary to keep said policy in force; the sum borrowed to be a first lien on the policy. 12 passed.

13. Passed as follows: Any person insuring with profits, may apply the same either in payment of premiums, or direct them to be added to the insurance money payable at death.

The bill was reported. Report to be considered to-morrow.

THE LAND AMENDMENT BILL

Was—second reading—deferred until Friday for printing.

It was explained that there was a large amount of printing in the hands of the Government.

MEMBERS' INDEMNITY BILL AND MUNICIPALITY AMENDMENT BILL

Were also deferred. The report on the Firemen's Protection Amendment Act, 1873, was agreed to, and the bill read a third time and passed.

CUSTOMS AND EXCISE.

The House resolved itself into a committee of the whole, and resumed the debate on the advisability of having a modification of the Excise and Customs Laws.

Mr. Bunster again opened the question. He had expected the support, and was astonished with the opposition to protection offered by Mr. Holbrook. He did not take up the time of the House, inasmuch as he had the privilege of a reply. Even at Nanaimo a change had come over the views of the people. The people find out that they are very much injured by the Canadian Tariff.

Mr. Robson—No, no.

Mr. Bunster would prove it, and the manager of the Coal company admitted it to him. He again appealed to the House for their support.

Hon. Mr. Walkem gave his position as was understood by his constituents last year. There were but two courses left last year—accept the Canadian, or take the British Columbia tariff. We must take a broader view of the case, and he argued in favor of a fair protection for farm produce. It is our bounden duty to foster agricultural interests, so long as it is not against the interests of the Province as a whole. The upper country would not be affected; freight protects it. He did not believe that all the articles mentioned wanted protection. Now is the time to assist our farming population. We are paying for foreign produce, when with a little self denial we could grow it ourselves. He looked upon the Stamp Act as a harrassing Act, and the last to be placed upon the Statute Act. He would move an amendment, that iron, steel, flour, mining and agricultural implements and machinery, be admitted free; or in other words, that we should give every encouragement to our mining and agricultural interests.

Hon. Dr. Ash, in supporting the protection of the farmer, compared the facilities of the California farmer with those of Comox and Nanaimo, showing the advantages of old countries over those of new, as in our own case. The great thing is is it fair and right to ask the Dominion Parliament to comply with the resolution? He thought it was fair and right; it would be for the benefit of the Province, and the Dominion, and could do no one any harm. He hoped it would pass.

The resolution and amendment were read: "That flour be 50 cents per bbl., be struck out of the resolution, and that after the word that in the resolution, the following be added: iron, steel, mining and agricultural implements, and material used for the manufacture thereof, be admitted free of duty."

Mr. Robson, while paying due importance to agriculturists, at the same time said it was just possible a sufficiently wide view of the question is taken, as affecting our other interests. Manufacturing interests were in their infancy, but should be kept in view, as also the commercial interests of the community. Hon. members should not exclusively look to agricultural interests, but should try to see how the protectoral administration would relatively affect those of manufacture and commerce. The hon. gentleman remarked that if he were a farmer he would no doubt like to have a large protection on his commodities, but he would also try to discern how far that protection would affect other interests besides his own. He had seen no reason why the Canadian tariff ought not to have been adopted; he thought at the time they adopted this new tariff they would save $68,000 per annum, but he found upon examination of statistics, they were actually saving $128,000 per year. Did not the farmer derive his fair share of that profit, and in every way become benefited from the Canadian tariff? Hon. members would be asked to notice the great amount of money which was annually going out of the country; but even admitting that the money which had left them for foreign produce had increased, it certainly had not done so more than had the value of imports which were annually coming into the country. He did not expect hon. members to confine their observation to the mere present, but to look ahead for only 12 months, when they would find great works going on and the consuming population almost doubled. It was notorious that they brought in as much flour from foreign countries under the Canadian tariff as they did under the old B. C. tariff. Let them by all means put on a protective duty directly the farmers were in a position to supply the demand, but such at present, he was grieved to see, was not the case. He was perfectly sure that the farmers of the country could never begin to be equal to the wants of the people a few years hence. He thought the amendment of the hon. Attorney General made the motion of the hon. member for Victoria district much less objectionable. Their remoteness from Canada rendered it almost imperative that they should be allowed to import British and foreign machinery free of import duty; but he would assert again that he believed the Ottawa Government could not, dare not, and would not give the people of British Columbia a special tariff; for once the wedge was inserted it would result in the splitting up in a thousand fragments of the Federal Constitution. If it were given to one Province, every other Province in the Confederation would expect and demand it. However, if the House thought fit let it ask; it could, perhaps, do no harm; he wished he could, with due respect to his conscience and scrupulous convictions, give the hon. member for Victoria his hope and support for success. He was sure that the mover of the resolution was earnest and student both in the House and out of it, on behalf of his constituents; but he feared he was laboring for a mistaken object. One firm alone paid out in Nanaimo the sum of $350,000 per month, per annum, in hard cash. [Sensation.] This was money brought from abroad and circulated in the community there, which consumed large lots of commodities and enormous quantities of flour, and he was opposed to any duty upon the actual necessaries of life.

Mr. Humphreys regretted the wants of the Province were not thoroughly understood. He had just listened to a most eloquent speech from the hon. member for Nanaimo but it reminded him of a tree with beautiful foliage which failed to bear any fruit. [Hear, hear.] He was sorry that the hon. gentleman had taken the views he had just expounded. The matter before them was one which did not entirely appertain to the treasury, but was an affair which affected the general welfare of the country. He did not approve of the amendment of the hon. Attorney General; it would stunt the industries of local manufactories, small as they might be at present The word protection had been misunderstood; let them protect *every* industry which was already established in the country, not the farmer alone; and let them encourage any industry which there was a possibility of starting in British Columbia.

Mr. Booth said a question of the difference between the old British Columbian and Canadian tariff had never been raised at all. They had only discussed a modified tariff as yet; agriculturists here should be protected and it was unfair to them to compare them with farmers of Canada. He thought that if the import duties were still kept so low, all manner of agricultural labor would be enticed to other resorts The present state of the tariff would, if continued, destroy all hopes of the farmer, and compel him to seek a living at some other industry; the result being that agriculture would fade away to a thing of the past (Hear, Hear.) He would in the interest of the farmers, support the resolution.

Mr. Smithe thought the question one of much importance. It seemed to him that it was one which required a careful and thorough handling. England was always quoted by the advocates of free trade; her best men were quite right to advocate it, and as long as she remained in her present prosperity she would be right to continue to do so. The strong needed no assistance, but it was different with the weak. British Columbia was comparatively an infant pitted against strong neighboring states, and unless protected she would be beaten by them. Gentlemen could talk as they liked about the mines, but none of them could flourish without assistance and protection. All interests seemed to meet with a protectional administration except those of agriculture. He wished he had a tongue as smooth as that of the hon member from Nanaimo. The hon. gentleman then recapitulated what he believed to be the subtle meaning of the speech delivered by the member from Nanaimo; and went on at some length to assert that commerce *must* exist so long as there was a demand for the commodities of life; it never thrived of itself, but was built up and became prosperity from the support of the other industries of the country. If the resolutions had any tendency towards the welfare of the country as he contended it had, then it was the bounden duty of every member of that House to support it. It would induce immigration, and thus increase demand, and encourage the farmer. Were they to congratulate themselves on the great increase of the amount of money they had paid out for imports, or were they not rather to regret such a fact? Since the advent of the Canadian tariff they had paid a great sum of money for imports and was it not better that they should in future pay that money into the home treasury, than place it in a lump sum into the pockets of their foreign relations. The free port system in force here for eight years had prostrated the country and they were but too glad to advocate the application of the British Columbia tariff, but then the country was dead almost and had no recuperative vitality left to take advantage of the change; the country's recovery from its prostrate condition was necessarily slow, but slow as it was it was real and had the protection to farmers been continued till today the result would have been satisfactory. The hon. member for Nanaimo had told them their application would be spurned, but he did not think such was the case. He hoped to see the resolution passed and they would even if it was of no avail, have the satisfaction of knowing that they had done their duty. As to the amendment he did not approve of it but sooner than see the original resolution killed, he would vote for it. Hear hear.

Mr Barnston was glad to hear the latter remark of the hon. gentleman from Cowichan for he was in support of the amendment himself. The Canadian tariff neither adopted a free trade or a protectional principle. When it was contended that the home government would laugh at their resolution, he thought hon. members did so without really thinking at all about it; he was rather of an opinion that the government would be pleased and glad to hear what they thought about the tariff and if possible to meet their wants. The Province of Manitoba had met with favorable treatment from Ottawa on a similar grievance and why should not they? He had no doubt their prayer would be granted if it did not actually injuriously affect Ontario. Objection had been taken to the amendment on the ground that a free admission of machinery, &c., nullified the protectional system, but such was not the case, a modified tariff necessarily comprised partly free imports and partly imports subject to a duty. What was the use of protecting the produce of the farmer if they on the other hand made them pay a heavy import duty on their necessary machinery? He thought the House did well to accept the Canadian tariff last year, in preference to a continuance of the old British Columbia tariff; but it did not follow that they were not to improve it if possible. He objected to the free importation of iron and steel, as there were no such mines in the country.

The Committee here rose, reporting progress and asking leave to sit again to-morrow at 3 o'clock, till which hour the House adjourned.

Police Court.

[Before A. E. Pemberton, Esq. S. M.]

TUESDAY, Jan. 22, 1873.

A number of summonses against various parties for default in payment of taxes, occupied the attention of the Court yesterday. Some twenty cases were dismissed, six being postponed until Monday next.

FOR OLYMPIA.—The steamer North Pacific sailed yesterday morning from Messrs. Brodrick & Co.'s wharf, for Olympia and intermediate way ports on the Sound. She carried the usual mails, with a light amount of freight and a few passengers.

GRAND BALL.—This evening, the bachelors of our city give the first of a series of balls at the St Nicholas Hall. It will be most numerously and fashionably attended; the many invitations issued having met with almost general acceptance.

DEPARTURE.—This morning, at 7:30 o'clock, the steamer Enterprise for New Westminster, with an up-country mail. To-morrow morning, at daylight, the steamer Otter, from the H. B. Co.'s wharf, for Skeena and way ports.

THE PRINCE ALFRED.—The steamer Prince Alfred sailed from San Francisco for this port on Monday last, with 200 tons of freight and 30 passengers. She is due here on Friday next.

FOR NANAIMO.—The steamer Gussie Telfair put out at 7:30 a.m. yesterday, for Nanaimo, where she will coal; returning to Esquimalt for passengers on Friday morning.

Washington Territory Notes.

The Olympians report some 20 or less shocks since the first one, about four weeks since. The Pacific Hotel at Olympia, a few days since, came into the possession of the new firm of Stykes & Quinby, the latter gentleman was formerly with his brother in the American Exchange of Portland; a large number of rooms are added, besides it contains the stage office for travellers to the cars, on the N.P.R.R. A series of protective meetings are going on in Olympia. On last Sunday 13 joined the M. E., and four joined the Presbyterian Churches. The wind being a brisk southeaster rendered the Straits quite lumpy, but none of the passengers per North Pacific were sick, so smoothly does she move over the waves. The Circuit Court is called for this week at Steilacoom, Judge J cobs on the bench, with but a small docket. An unusually busy season is anticipated by mill men on the Sound, on account of the fine propect in California, for an abundant grain crop, consequent on the late copious rains in that State. Cars are now running regularly since the slides were repaired, on the R. R., to the Columbia, and travel on this route is on the increase, and yet there is room. —COM.

Smith, LaPasse, Mastell, Hues, Bryant, and five Indians. The King Philip was lying outside the Heads yesterday morning, waiting to enter port. A Puget Sound tug lay alongside of her. The Aya was still at Departure Bay, loading coal. The Victor was taking in from the Company's works.

I. O. O. F.—At a regular meeting of Vancouver Encampment, No. 1, I. O. O. F., held last evening, D. D. G. P. Weiler, assisted by his grand officers, duly installed the following officers elect for the ensuing term:—J. Sehl, C. P.; Chas. Morton, H. P.; Jos. York, S. W.; R. Roberts, Scribe; F. G. Richards, Treasurer; S. F. Styles, J. W.; P. J. Hall, O S.; J. S. Drummond, G.; J. Weiler, 1st W.; J. D. Robinson, 2nd W.; C. Gowen, 3rd W.; A. Astrice, 4th W. We learn that the charter for this branch of the Order has been received, and from reports it is in a very flourishing condition.

FOR THE EAST COAST.—The steamer Sir James Douglas sailed yesterday morning at 7 o'clock, for Nanaimo and way ports on the East Coast, with the usual mails freight and passengers. She took on board two head of cattle, two horses, five sheep, and Messrs Ed. Marriner and B. Campbell.

NEW SETTLERS.—Several new settlers have located on the coast, above Nanaimo, within a recent date; four claims have been taken up on Denman Island, and several on the opposite coast of Vancouver Island.

NAVAL.—H.M.S. Peterel will leave Esquimalt harbor for the coast of Central America and Mexico, on Monday next.

THE Princess Royal was to sail last evening from the Royal Roads, for Europe, spar laden.

[FROM OUR RESIDENT CORRESPONDENT.]

EDITOR STANDARD: After a two weeks' sojourn in the gay and sprightly capital of this Province of the Dominion, and having participated to some extent in the rational enjoyments attendant on a festive season of the year; the impressions derived from visiting your Public Schools, Parliament House, public libraries, picture galleries, and elegant stores, the "feast of reason, and flow of soul" of your "social circle," viewing with disinterested complacency the noble and gentle demeanor of you female society, under "steam,"—I mean the steam of the tea kettle—I say, after such a conglomeration of sights and impressions, one needs time for reflection before he can be in a fit capacity to revel a little in "fancy," or draw slightly on imagination, as at times is necessary and becoming a correspondent of the fourth estate. With this regard, I shall for the present content myself with setting down a few simple matters of fact; then *imprimis*:

ELECTION OF SCHOOL TRUSTEES.

The annual meeting for the election of school trustees, was held in the district school room, on Wednesday, the 8th inst. The following gentlemen were elected for terms of office, respectively: S. Robertson, for three years; J. W. Mackie, for two years; and A. Innes, one year. The school business being concluded, the meeting, which was large—there being in the vicinity of twenty persons present—resolved themselves into a committee of the whole, to discuss several clauses of the Municipal Act, with a view to having the

DISTRICT INCORPORATED.

Wm. Innes, Esq., was called to the chair, and Mr. Gibbs acted as scribe. A motion was put and carried, to the effect that immediate action be taken to have the district incorporated. The chairman then appointed the following gentlemen a committee to carry out the preliminaries: Messrs. Innes, Gibbs, Mackie, Robertson, Taylor, Morrison, Cudlip, Houston.

THE WEATHER

Continues mild and genial, and those amongst us who consider themselves weather wise, prognosticate an early return of spring, with its "living garment of green."

THE POLITICAL ATMOSPHERE

is again cloudless and serene. Since the advent of the new Cabinet, every body appears to breathe more freely, and a general feeling of confidence, and contentment seems to actuate the minds of all parties in this thriving, money amassing community. W.W.G.

Memory presides over the past. Fell's Coffee over the present. The first lives in a rich temple hung with glorious trophies, and lined with tombs, but Fell's Coffee has but one shrine and that is in every breakfast table. Its aroma walks the earth like a spirit and can be found for sale at every respectable dealers in British Columbia. Beware of spurious imitations. ly*

THAT PORTFOLIO.—As there is considerable discussion going on at present about the creating of new portfolios, the undersigned is prepared to make them in any quantity. Also, Blank Books and every description of Binding and Ruling done. R. T. WILLIAMS, at Messrs. T. N. Hibben & Co's. *

Cheap Cures for Great Diseases.

HOLLOWAY'S OINTMENT.

OLD SORES AND OLD SKIN DISEASES.

The seeds of these disorders are effectually expelled by this penetrating Unguent, not only from the superficial parts, but from the internal tissues likewise. Any case, even if of 20 years standing, speedily yields to its influence.

BRONCHITIS, DIPTHERIA, SORE THROAT, ASTHMA &C.

Rheumatism, and erysipelas may be overcome by frequently fomenting the affected parts in warm water, drying, and immediately applying this soothing Ointment. The same procedure applies equally well for caring sore throat, diptherria bronchitis, asthma, tightness of the chest, and pain in the side, which instant treatment alone prevents degenerating the more serious maladies. The Ointment has the same derivative powers over chest complaints as a blister possesses, without causing pain or debility.

HEMORRHOIDS—PILES, AND ABSCESSES.

Thousands suffer severely for years from these annoying complaints through false delicacy. Let such purchase a pot of Holloway's Ointment, read the directions which accompany it, act upon them to the letter, and they will, without difficulty, succeed in obliterating every vestige of these harrassing ailments.

ACCIDENTAL INJURIES, INFANTILE AILMENTS

In cuts, bruises, sprains, burns, and scalds, it will be found cooling, sedative and healing. The part effected should be fomented in warm water, dried gently, and the Ointment should be instantly applied. This purifying Ointment may be safely used in all eruptions, chafings and other cutaneous affections to which children are liable.

BAD LEGS, BAD BREASTS, OLD SORES AND ULCERS.

By rubbing the Ointment round the affected parts, it penetrates to the tissues beneath, and exercises a wonderful power on all the blood flowing to, and returning from, the diseased part. The inflammation diminishes, the pain becomes less intolerable, the matter thicker, and a cure is soon effected. In all long standing cases, Holloway's Pills will thoroughly expel all depraved humors from the body.

GLANDULAR SWELLINGS, STIFF JOINTS

This class of complaint yields without difficulty to the cooling and anti-inflammatory properties of this famed Ointment. It should be well rubbed over the affected parts, after due fomentation with warm water. It acts by stimulating the absorbents to increased activity, restraining ulceration, and promoting a free and copious circulation in the parts affected, and hence speedily and effectually ensuring a cure.

GOUT, RHEUMATISM AND PARALYSIS

Gout and Rheumatism arise from inflammation in the parts affected,—to effect a permanent cure, adopt a cooling diet, drink plenty of water, take six of these famous Pills night and morning, and rub the Ointment most effectually twice a day into the suffering parts, and a sure is certain. The paralytic patient should take about three Pills twice at week, and let the Ointment be well rubbed into the paralyzed limb which will, in a very little time, be greatly benefited—indeed many cures have been affected by this treatment.

ERUPTION ON THE SKIN.

In this class of complaints, no matter the age, the sex, or the place, or under what name, the disease may be classified, it may be cured if this Ointment be well rubbed into the system, and Holloway's Pills taken night and morning to purify the blood.

Both the Ointment and Pills should be used in the following cases:—

Bad Breasts	Gout
Burns	Glandular Swellings

A FRIEND IN NEED!

HOLLOWAY'S PILLS

WONDERFUL CURE OF ASTHMA OF 18 YEARS STANDING

Copy of a Letter from Mr. Ferdinand Mc Devett Innkeeper & Grocer, Glentics, Co. Donegal, dated 4th March, 1861.

To Professor Holloway.

Sir,—I suffered from asthma for 18 years, accompanied with great difficulty of breathing, and severe cough with spitting of blood. I was also afflicted with Piles. At different times I was treated by most skilful physicians, and was at length pronounced by them to be beyond cure;—as a last resource, I was induced to use your Pills and Ointment, and in the short space of a fortnight could walk about, and am now perfectly cured, to the astonishment of all who knew me.

BLOOD TO THE HEAD WITH GIDDINESS.

Copy of a letter from Mrs. Mary Foster, Half Moon Street, Totness, dated March 16th 1861.

To Professor Holloway.

Sir,—For many years I suffered periodically headache, and giddiness in the head, to such a degree that at times I have scarcely been able to walk; after obtaining the best medical advice without effect, I tried your Pills and in less than a week I was completely cured. Mrs. Donnal, Chemist, of Totness, can vouch for the truth of the above statement.

COMPLAINTS OF WOMEN AND CHILDREN.

The very mild and painless action of these invaluable Pills, recommends them to every household as a remedy for the early departures from health. Any mother, nurse, or young person guided by the direction which accompany each box of Holloway's Pills, has at once available means for checking disease, qualifying the blood, and expelling from the system all gross humors. They are, indeed, at all ages, the tried females friend.

DISORDERS OF THE KIDNEYS & OTHER INTERNAL ORGANS

Loss of appetite and flatulency are usually the forerunners of stomachic disease. These famous Pills exercise the most salutary power in all affections of the liver, and irregularities of the stomach and bowels; they restore a healthy function to every internal organ, overcome all obstructions, and cast out all impurities.

THE ACTION OF THE KIDNEYS & OTHER INTERNAL ORGANS.

The immediate loss of muscular strength and nervous energy is more particularly remarkable in renal than in most other diseases. Their deficient action for one day suffices to produce fever, hence the necessity for prompt and efficient treatment. Holloway's Pills have the great merit of restoring any suspended or diminished secretion, and of relieving any inflammation or congestion in the spleen, kidneys, or other subsidiary organs.

The tight, suffocating, anxious feeling caused by derangement of the heart, makes the sufferer look on present death as imminent. Holloway's Pills prove an efficient and ready remedy when the disturbed circulation depends on indigestion flatulency, or debilitated nervous vigor. Persons suffering from disturbance of the heart should take about six of these Pills two or three times a week, according to circumstances, to arrest the too active action of the heart.

WEAKNESS, LANGOUR AND DEBILITY.

These famous Pills will immediately remove all symptoms of debility, langour and weakness as they act upon the main springs of life, and thus save thousands from premature grave.

Holloway's Pills are the best remedy known in the world for the following diseases:—

Ague	Inflammation
Asthma	Jaundice
Bilious Complaints	Liver Complaints
Blotches on the Skin	Lumbago
Bowel Complaints	Piles
Colics	Rheumatism
Constipation of the Bowels	Retention of Urine
Consumption	Scrofula, or King's Evil
Debility	Sore Throats
Dropsy	Stone and Gravel
Dysentery	Secondary Symptoms
Erysipelas	Tic-Doulloureux
Female Irregularities	Tumours
Fevers of all kinds	Ulcers
